Why should you care?

An organization's employees are its number one asset, but did you know that their reach and impact are often greater than that of your corporate channels? Your employees are a more trusted source of information for the audiences most important to your organization - your customers, prospects, and future employees.

Activated effectively, they have the influence to grow your share of voice, website traffic, inbound leads, and conversions.

Plus, there's no better way to showcase your company culture and employer brand at scale than through the people closest to your business - your employees!

So, how active are your employees on social? And how does this compare to the rest of your industry? Well, we've done the number crunching and listed the results below.
